

CITB Site Supervision Safety Training Scheme Refresher

(SSSTS Refresher)

Introduction

The Site Supervision Safety Training Scheme Refresher will reinforce and update knowledge and awareness needed to promote and maintain safe working practices and a positive health and safety culture across building, construction and civil engineering industries.

This course is endorsed by Build UK.

Course Duration

SSG offer this course over one day as a classroom or virtual course.

Course Attendees

This refresher course must be attended by those wanting to renew their original CITB Site Supervision Safety Training Scheme certificate before it expires.

Note

Delegates must be competent in English at supervisor level in order to complete this course.

Course Programme

Completion of this course will help delegates to:

- understand the legal, moral and social responsibilities of a site supervisor within the construction industry
- supervise health and safety on site in accordance with the current legal provisions and within the content of the supervisor role
- develop an understanding of the roles, responsibilities and expected behaviours of a site supervisor in relation to site health, safety and welfare
- effectively manage health, safety, welfare and environmental issues on site
- promote a positive safety culture through effective leadership, supervision and workforce engagement.

The course covers the following modules:

- Roles and responsibilities of the site supervisor
- Health and safety law
- Occupational health and welfare
- General safety

- High-risk activities
- Environmental awareness

Training Certification and Assessment

Delegates will be assessed through completing mandatory exercises, passing the trainer review and passing the end-of-course assessment. Successful delegates will receive a CITB certificate valid for five years, renewed by attending a one-day refresher course.
