

NEBOSH National General Certificate e-learning

in Occupational Health and Safety

Introduction

The NEBOSH National General Certificate is the most widely held health and safety qualification of its kind in the UK. Many people take the NEBOSH National General Certificate as a first step in a career in health and safety, and it provides a valuable overview and a sound basis for further professional study.

As part of our modern learning approach, this qualification is available through **interactive eLearning**, designed to increase engagement, flexibility and learner confidence. Our digital platform supports active learning through scenario-based activities, short knowledge checks, multimedia content and tutor-supported forums. This enables learners to study in a way that suits their schedule and preferred learning style.

SSG are proud to be a NEBOSH Gold Learning Partner, confirming our position as a recognised training provider who consistently delivers exceptional learning experiences, expert tutor support and outstanding results. This highest-level accreditation gives delegates complete confidence that they are training with an industry-leading provider dedicated to quality, innovation and learner success.

Course Duration

SSG offer this course over 120 hours of online study, plus an online scenario-based assessment. It is delivered as a classroom, virtual, and **e-learning** course.

Our e-learning programme provides:

- **Self-paced modules** with progress tracking
- **Interactive exercises** to reinforce key concepts
- **Real-world case studies** to build practical understanding
- **Digital downloads, videos and infographics** to make complex topics easier to understand
- **Instant feedback quizzes** to support retention

This flexible approach ensures delegates receive the same high-quality training and support regardless of how they choose to learn.

Delegates will be given a 12-month licence from first access to complete the course. Once this licence expires, delegates will be required to pay a fee to reactivate it and should contact our Customer Service Team for more information.

In addition to structured learning, delegates will be expected to undertake a minimum of 40 hours of private study time.

Course Attendees

This course is suitable for managers, supervisors and staff from all types of organisations making day-to-day decisions at work who need a broad understanding of health and safety issues and to be able to manage risks effectively.

The eLearning format is particularly beneficial for:

- Learners who prefer flexible, self-directed study
- Busy professionals who need on-demand access
- Those who benefit from interactive content rather than traditional text-based learning
- Remote teams and organisations seeking consistent training across multiple sites

Professional membership

Holders of this qualification meet the academic requirements for technical membership (TechIOSH) of the Institute of Occupational Safety and Health (IOSH – www.iosh.co.uk) and associate membership (AIIRSM) of the International Institute of Risk and Safety Management (IIRSM – www.iirsm.org).

Assessments must be taken in the UK to be eligible for IOSH membership.

Course Programme

Unit NG1 – Management of Safety and Health

Assessed through an online scenario-based assessment

Delivered through a blend of digital and tutor-led content, NG1 includes:

- Why should we manage workplace health and safety?
- How health and safety management systems work and what they look like
- Managing risk – understanding people and processes
- Health and safety monitoring and measurement

Unit NG2 – Risk assessment

Practical project and assessment

This unit guides learners through the process of carrying out a workplace risk assessment. The e-learning version includes:

- Walk-through demonstrations
- Model assessments
- Step-by-step interactive tasks
- Real-world examples from multiple industries

Topics covered include:

- Physical and psychological health
- Musculoskeletal health
- Chemical and biological agents
- General workplace issues
- Work equipment
- Fire
- Electricity

Training Certification and Assessment

Delegates will be assessed through an online scenario-based assessment and a practical risk assessment project set by NEBOSH.

Successful delegates will be awarded with the nationally recognised qualification.
