

Duty to Manage Asbestos (UKATA)

SSG is a UKATA-registered member

Introduction

Asbestos is one of the biggest occupational health issues in the UK. The Health and Safety Executive (HSE) figures suggest that approximately 5000 people die each year in the UK due to past exposure to asbestos. In excess of 6 million tonnes of asbestos were imported into the UK prior to it being banned in 1999; much of this still remains.

This course covers an overview of the duty to manage asbestos in non-domestic premises as specified in the Control of Asbestos Regulations 2012, Regulation 4.

Course Duration

SSG offer this course over one day as a classroom course and virtual course.

Course Attendees

Any person who requires an overview of the duty to manage asbestos and legislative requirements. This would normally include, but is not limited to, duty holder's assistants, appointed person's assistants, building owners, landlords, sublets, managing agents and any person assisting duty holders in compliance with CAR 2012 Regulation 4.

Course Programme

- Asbestos awareness training
- Regulation 4 – Duty to manage asbestos in non-domestic premises
- Asbestos surveying
- The asbestos survey report
- The asbestos management plan
- Defining work which is non-licensable and licensable, including notifiable non-licensed work
- Case study / workshop

Training Certification and Assessment

Delegates will be assessed through a multiple-choice assessment. UKATA certification will be provided on successful completion of the training and is valid for one year. UKATA requires annual refresher training for delegates having attended this course.

ID cards can be requested at an additional cost of £3.50 per delegate.
