

# NEBOSH HSE Introduction

to Incident Investigation

## Introduction

The NEBOSH HSE Introduction to Incident Investigation has been developed jointly by NEBOSH and the HSE following reviews that indicate incident investigations have generally been poor.

Delegates who attend the course will be able to independently investigate simple incidents, gather evidence, produce an action plan to prevent reoccurrences of incidents, contribute to team investigations and positively impact on the safety culture within their organisation.

## Course Duration

SSG offer this course over one day as a classroom or virtual course. Delegates will be required to complete three hours of pre-course reading before their course commences. Suggestions for this reading include:

- Reading and understanding the requirements of their organisation's incident investigation policy
- Reviewing a sample of their organisation's previous incident investigation reports to find what lessons have been learnt
- Reviewing some of the incident investigation case studies from the HSE's website that may be relevant to their organisation: <https://www.hse.gov.uk/slips/casestudies.htm>

It is delivered as a classroom and virtual course; delegates can choose to mix these learning styles. This enables delegates to be flexible with their learning to suit their needs whilst still getting the same quality training, support and communication with tutors and other learners.

When booking, please indicate how you will be attending the first day of the course so we can ensure your learning materials are with you in the right location.

## Course Attendees

This course is suitable for anyone who wants to carry out incident investigations effectively, including employers, managers, supervisors, SHE champions, union and safety representatives, and aspiring health and safety practitioners.

### Note

Whilst there are no entry requirements for this qualification, it is recommended that learners have an underpinning knowledge of health and safety issues, and many may have already gained another NEBOSH qualification.

The standard of English required by delegates must be such that they can both understand and articulate the concepts contained in the syllabus.

## Course Programme

### Unit INV1:

- Understand why incident investigations are carried out and how human and organisational factors contribute to incidents
- Understand how to investigate incidents and confidently carry out an investigation

## Training Certification and Assessment

Assessment is throughout the course via application of knowledge by analysis of a theoretical incident investigation. On successful completion of this course delegates will receive a NEBOSH certificate.

## Suggested Follow on and Complementary Courses

- NEBOSH HSE Award in Managing Risks and Risk Assessment at Work
- NEBOSH National General Certificate in Occupational Health and Safety
