

# CoSHH Assessment Workshop

## Introduction

Every year thousands of workers are made ill by hazardous substances, contracting lung diseases such as asthma and cancer or skin disease such as dermatitis. The Control of Substances Hazardous to Health Regulations (CoSHH) require that an employer shall not carry out work liable to expose workers to hazardous substances unless a suitable and sufficient assessment has been made of the risk.

This course explores the CoSHH regulations, explaining terminology and providing good practical tips on carrying out and improving CoSHH assessments.

## Course Duration

SSG offer this course over one day as a classroom or virtual course.

## Course Attendees

This course is aimed at safety managers, production managers, safety representatives or any person with responsibilities for processes that utilise, or generate as by-products, hazardous substances.

## Course Programme

- Why manage chemicals?
- An overview of relevant legislation
- CoSHH assessment process
- Terminology
- Classification and labelling
- Safety data sheets
- Exposure and Workplace Exposure Limits (WELs)
- Controls – principles of prevention, hierarchies and maintenance
- Monitoring
- Special considerations
- Practical CoSHH assessment

## Training Certification and Assessment

Delegates will be assessed on their input during the practical exercise and their feedback. On successful completion of training, delegates will receive SSG course attendance certificates which are valid for three years.

## Suggested Follow on and Complementary Courses

- Risk Assessment Workshop
- IOSH Managing Safely®
