

NEBOSH Health and Safety Management for Construction (UK)

Introduction

Many people take this NEBOSH course as a first step in a career in construction health and safety. It provides a valuable overview of construction health and safety issues and is a sound basis for further professional study.

The NEBOSH Health and Safety Management for Construction (UK) replaces the NEBOSH National Certificate in Construction Health and Safety.

Course Duration

SSG offer this course over 10 days as a classroom course, plus an open-book examination (OBE). In addition to classroom-based study, delegates will be expected to undertake a minimum of 40 self-study hours.

This course is also available to distance learners with a view to course delivery over a period of time which suits the learner.

Course Attendees

This course is suitable for managers, supervisors and anyone who manages construction health and safety as part of their duties. It is designed to provide a sound breadth of underpinning knowledge which enables them to carry out their health and safety duties and manage day-to-day risks effectively.

Note

The standard of English required by delegates studying this qualification must be such that they can both understand and articulate the concepts contained in the syllabus.

Course Programme

Unit NC1 – Managing construction safely

- Element 1 – The foundations of construction health and safety management
- Element 2 – Improving health and safety culture and assessing risk
- Element 3 – Managing change and procedures
- Element 4 – Excavation
- Element 5 – Demolition
- Element 6 – Mobile plant and vehicles
- Element 7 – Working at height

- Element 8 – Musculoskeletal health and load handling
- Element 9 – Work equipment
- Element 10 – Electricity
- Element 11 – Fire
- Element 12 – Chemical and biological agents
- Element 13 – Physical and psychological health

Delegates requiring additional information about this course can download the syllabus guide [here](#).

Training Certification and Assessment

Assessment consists of one open-book examination (OBE) which delegates have 48 hours to complete and submit. The examination does not have to be completed in one go. Successful delegates will be awarded with the nationally recognised qualification.

Suggested Follow on and Complementary Courses

- NEBOSH Certificate in Fire Safety
- NEBOSH Certificate in Environmental Management
- NEBOSH National Diploma for Occupational Health and Safety Management Professionals
