

IOSH Leading Safely

Introduction

The Institution of Occupational Safety and Health (IOSH) is Europe's leading body for health and safety and is committed to promoting protection from workplace hazards at every level.

This course focuses on coaching delegates to become more effective leaders. Using a unique diagnostic tool delegates analyse their health and safety leadership performance and make a personal commitment plan to improve.

Course Duration

SSG offer this course over one day as a classroom course.

Course Attendees

The course is intended for directors and management with strategic responsibility for leading effective health and safety management of teams of employees.

Course Programme

- Leadership characteristics
- The broader context
- Benchmarking current performance
- Building capability
- Applying leadership
- Action planning

Training Certification and Assessment

A diagnostic tool, accessed via a mobile app, is used to identify the current leadership behaviour against a set of critical questions. At the end of the course delegates make a personal action plan to improve their own and their organisation's safety and health management. The course is assessed by the quality of the plans made by each delegate. All successful delegates are issued with IOSH certificates.

Suggested Follow on and Complementary Courses

- IOSH Safety for Executives and Directors
- NEBOSH National General Certificate in Occupational Health and Safety
- NEBOSH Health and Safety Management for Construction (UK)
