

CITB Site Environmental Awareness Training Scheme

(SEATS)

Introduction

Environmental issues are becoming increasingly important to businesses of all sizes. This course aims to provide delegates with an introduction to environmental issues on construction sites.

It is designed to meet the environmental knowledge that the subcontract chain is required to prove to major contractors, covers the environmental impacts of work and identifies environmental improvement opportunities.

Course Duration

SSG offer this course over one day as a classroom or virtual course.

Course Attendees

The course is aimed at those considering, or already, working within the construction and civil engineering industry.

Note

Delegates must be competent in English at supervisor level to complete this course.

Course Programme

- The environment and why it matters
- Environmental management systems
- Contaminated land
- Waste management
- Pollution prevention and water management
- Statutory nuisance, communication, archaeology and heritage
- Energy and resources
- Being a responsible contractor

Training Certification and Assessment

Assessment will be by multiple-choice questions at the end of the course. Delegates will also be expected to actively take part during the course. Successful delegates will be awarded with a CITB certificate which is valid for five years.
