

CDM for Contractors and Principal Contractors

Introduction

The Construction (Design and Management) Regulations (CDM 2015) are designed to improve construction-related health and safety management, have the right people for the right job at the right time to manage on-site risks and focus on effective planning not the paperwork.

This course gives an overview of CDM regulations whilst focusing on the duties of the Contractors and Principal Contractors.

Course Duration

SSG offer this course over one day as a classroom course, or a half day virtual course.

Course Attendees

Any person or organisation in or taking on the role of contractor or principal contractor is advised to attend.

Course Programme

- CDM overview
- Principal contractor and contractor duties
- The construction phase plan
- Site rules and control
- Managing other contractors
- Physical safeguards in construction
- The production of the health and safety file
- Workshops include pre-construction information, developing a construction phase plan, the health and safety file and competence of contractors

Training Certification and Assessment

Delegates will receive an SSG course attendance certificate on successful completion of the course.
