

# Duty to Manage Asbestos Refresher (UKATA)

SSG is a UKATA-registered member

## Introduction

Asbestos is one of the biggest occupational health issues in the UK. The Health and Safety Executive (HSE) figures suggest that approximately 5000 people die each year in the UK due to past exposure to asbestos. In excess of 6 million tonnes of asbestos were imported into the UK prior to it being banned in 1999; much of this still remains. Regulation 4 of The Control of Asbestos Regulations 2012 requires that asbestos is managed in non-domestic premises so that no one is exposed to asbestos in the future.

This course will refresh and update the knowledge provided on the UKATA Duty to Manage course.

## Course Duration

SSG offer this course over half a day as a classroom or virtual course.

## Course Attendees

This course is intended for any individual who requires an overview of the duty to manage asbestos and legislative requirements who have previously attended UKATA's Duty to Manage course.

## Course Programme

- Asbestos awareness
- Regulation 4 – Duty to manage asbestos in non-domestic premises
- Asbestos surveys and registers
- The asbestos management plan
- Defining work which is non-licensable and licensable, including notifiable non-licensed work
- Course assessment

## Training Certification and Assessment

Delegates will be assessed on their input during the practical exercise and their feedback. UKATA certification will be provided on successful completion of the training and is valid for one year. UKATA has a mandatory requirement for delegates to complete regular refresher training.

ID cards can be requested at an additional cost of £3.50 per delegate.
