“The first aid course with SSG was great, would highly recommend it! I completed the emergency first aid training (1-day course) last year, however, the 3-day course with SSG was far more informative and provided a lot more detail with a lot more conditions covered e.g., Epilepsy, diabetes, strokes, anaphylactic shock, and heart attacks which weren't touched on in detail on the 1-day course. I had an incident over the weekend with a customer choking and because of my training, I was able to deal with this quickly and confidently meaning the customer left the premises safely. So, extremely grateful! Another highlight of the course was being with others from different industries. It made the course far more interesting being able to see how this applied in other work settings.”

“Best tutor I have ever had, the most informative and friendly. I couldn’t have asked for more and there was nothing I would have changed. I just wanted to make sure he gets the recognition that he deserves as that was the best course I have ever attended! Just phenomenal how he gets the points across. Thank you!”
